

CROYDE FOLD-AWAY BED

The Croyde Fold-Away Bed is a space-saving sleeping solution for maternity and paediatric units.

Our hospital folding bed provides a comfortable night's sleep. With an 80cm mattress width, it's spacious yet compact.

The easy-open design means that this bed can be set up in two simple movements by staff, partners or family members to provide a comfortable bed for overnight stays.

Likewise, the bed can be quickly and easily folded away for storage.

STORAGE & TRANSPORT

The Croyde Fold-Away Bed is lightweight with wheels on the base, making it easy to move around. It can be set up and stored by just one person.

With a footprint of only 38cm deep, five folded beds can be stored in the same footprint as one flat-lying bed.

MATTRESS & INFECTION CONTROL

Each bed comes with a 10cm deep, comfortable mattress that folds during set up and storage.

The solid bed deck makes cleaning the bed a simple task. The surface can be cleaned with hospital approved wipes and chlorine-based solutions.
