

CROYDE BIRTHING BALLS

The Croyde birthing balls are designed to help birthing people find their most comfortable positions during labour

CROYDE BIRTHING BALL

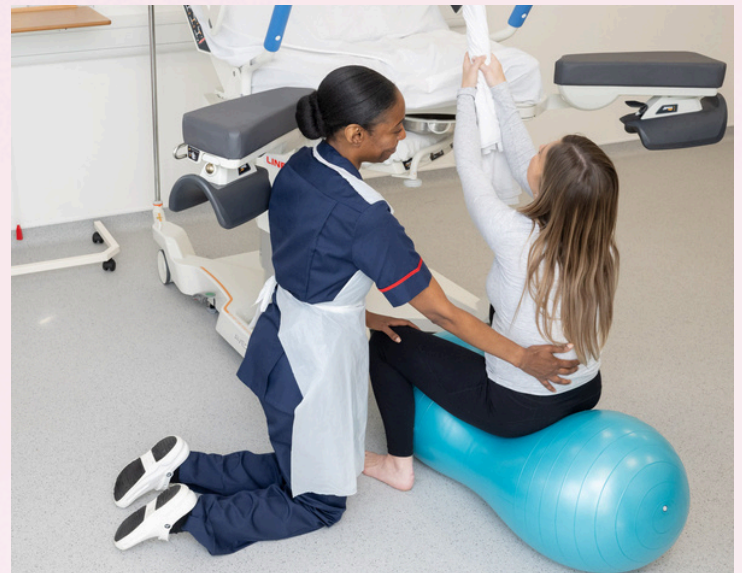

CROYDE PEANUT BALL

HIGH QUALITY MATERIALS

The Croyde Peanut and Birthing Balls are made from a BPA, hypoallergenic and phthalate free material making them pregnancy and baby-safe.

With a material density of 2000 micrometres and a weight capacity of up to 1,000kg, both the Peanut Ball & Birthing Ball are incredible durable.

SAFE & HYGIENIC

Anti-burst technology means that if the peanut ball or birthing ball is pierced, they will deflate slowly to ensure no injuries occur.

The eco-friendly hypoallergenic PVC is also non-slip.

The material is also easy to clean with detergent wipes and chlorine based disinfectants.

ACTIVE BIRTH AND BIRTHING BED COMPATABILITY

Both the Croyde Peanut Ball & Croyde Birthing Ball can be used alongside birthing beds and active birth equipment during labour to facilitate a wide range of positioning options.
